#### **Student medical forms**

During Terms 3 and 4 we will be updating our medical

records systems to ensure we have the most up-to-date information on your child's health.

If you have a child with a medical condition you will receive a copy of the new forms and will need to fill them out and return them to us as soon as you can.

The new forms will help us collect your child's important medical information and the introduction of new systems in all NSW public schools will mean we'll be able to better manage the daily and emergency health needs of your child.

We appreciate your support as we start collecting the information, and if you have any questions please call.

#### **Administration of Medication at School**

When a medical practitioner has prescribed medication that must be administered during the school day, parents are responsible for:

- completing a written request for medication to be administered at school
- ensuring that the information is updated if it changes
- supplying the medication and any 'consumables' necessary for its administration in a timely way
- collaborating with the school in working out arrangements for the supply and administration of the prescribed medication.

Students must not carry medications unless there is a written agreement that this is a planned part of the student's health care support. However, students should carry asthma puffers if required. Please do not send your child to school with any other medication unless approval has been granted. This includes 'over the counter' medication such as panadol.

Except in an emergency, only individual staff members who have volunteered and been trained, can administer prescribed medication to students.

#### **It's time to enrol for 2014**

Kindergarten enrolment forms are available from the front office. Please complete and return to the office with proof of address, birth and immunisation documentation as soon as possible.
